

Henry County Stormwater Management (HCSM)

- ✓ Local government entity
- ✓ Established March 2004 by elected Henry County Board of Commissioners (BOC), in conjunction with the Stormwater Management Utility Ordinance adopted May 2006, to ensure compliance with State of Georgia Environmental Protection Division (EPD) National Pollution Discharge Elimination System (NPDES) Phase II permit that allows legal discharge of municipal stormwater into waters of the State of Georgia
- ✓ Assesses stormwater management utility fee on all property tax statements
- ✓ Funded by stormwater management utility fee
- ✓ Serves unincorporated (outside city limits) Henry County
- ✓ Areas of service:
 - Pollution prevention of aquatic resources
 - Stormwater structures: collapsed/cracked/exposed rebar/malfunctioning
 - Stormwater drainage ditches within dedicated (deeded to Henry County) drainage easements: clogged with sediment/debris; blockages
 - Stormwater pipes: clogged/collapsed/holding water/rusted/corroded
 - Illegal dumping/illicit discharge within stormwater infrastructure and/or aquatic resources
 - Timber permit reviews
 - Land Disturbance Permits (LDP)s: (1) Floodplain review & (2) Erosion Control review
 - Stormwater/Pond/Hydrology As-Builts
 - Development Reviews: (1) engineering review & (2) Erosion & Sedimentary Pollution Control (ESPC) reviews
 - Elevation Certificates (for floodplain development)
 - Green Infrastructure (GI)/Stormwater Infrastructure Inventory
 - Stormwater Development reviews
 - Stormwater-related open records requests
