DAWGY BAG SERVICE

Starting January 1, 2011 the Trash Dawgs will introduce: “Dawgy Bags”.

Customers selecting this service will pay based on the amount of trash they throw away. Many communities across America and around the world have adopted this method. It’s known as: “Pay as You Throw” (PAYT). When combined with **recycling**, it truly reduces your waste bill, and reduces the amount of waste going back into our planet! To learn more go to: www.epa.gov/osw/consERVE/tools/payt/

The complaint we hear most often from our customers: *“I have one or two bags of trash per week, why do I have to pay the same amount as my neighbor who has a full can every week!?”* You no longer have too with “Dawgy Bags” !

Service Outline

- Customers will pay an annual route fee:
 1. Waste pick up \$72.00 (\$6.00 per month)
 2. Waste and recycling pickup \$108.00 (\$9.00 per month)
- Customers will purchase Dawgy Bags from Rover for \$1.00 per bag. Rover will drop off the Dawgy Bags at your house.
- Dawgy Bags will be sold only in packages of 20 for \$20.00.
- Dawgy Bags are standard 1.25 mil 33 gallon waste bags with twist ties.
- Customers may set out as many Dawg Bags as they wish on their scheduled collection day.
- Rover will **only** pick up trash that is inside the Rover Dawgy Bags.
- On collection day customers can place the Dawgy Bags at the curb, put the Dawgy Bags in their own trash can, or they can purchase a 95 gallon Rover Trash can for \$60.00.

Our ultimate goal is to have our local grocery stores carry the Dawgy Bags so our customers can buy them as needed.
