INDEPENDENT AUDITOR'S REPORT

**To the Board of Commissioners
of Henry County, Georgia
McDonough, Georgia**

We have audited the accompanying financial statements of the governmental activities, the discretely presented component units, each major fund and the aggregate remaining fund information of **Henry County, Georgia**, as of and for the year ended June 30, 2004, which collectively comprise Henry County, Georgia's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Henry County Department of Public Health or the Henry County Library System, which statements reflect total assets of \$1,539,675 and \$1,782,046, respectively, as of June 30, 2004, and total revenues of \$1,873,611 and \$1,417,472, respectively, for the year then ended. Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinion on the basic financial statements, insofar as it relates to the amounts included for the Henry County Department of Public Health and the Henry County Library System in the component units columns, is based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audits and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component units, each major fund and the aggregate remaining fund information of Henry County, Georgia as of June 30, 2004, and the respective changes in financial position, and the respective budgetary comparisons for the General Fund and E911 Fund for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 29, 2004 on our consideration of Henry County, Georgia's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis (on pages 4 through 11) is not a required part of the basic financial statements, but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Henry County, Georgia's basic financial statements. The combining and individual non-major fund financial statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements of Henry County, Georgia. The schedules of expenditures of special purpose local option sales tax proceeds are presented for purposes of additional analysis as required by the Official Code of Georgia Annotated 48-8-121, and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for the purpose of

additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*, and is also not a required part of the financial statements of Henry County, Georgia. The combining and individual non-major fund financial statements and schedules, the schedules of expenditures of special purpose local option sales tax proceeds, and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis

As management of Henry County, Georgia, we offer readers of Henry County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2004. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, the financial statements, and the notes to the financial statements.

Financial Highlights

- The assets of Henry County exceeded its liabilities at June 30, 2004 by \$190,937,184 (net assets). Of this amount, \$76,290,806 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors,
- At June 30, 2004, the County's General Fund reported an unreserved fund balance of \$35,666,924, an increase of \$1,074,388 or 3.11 percent from the last fiscal year.
- The 2002 Special Purpose Local Option Sales Tax (SPLOST) generated collections of \$22,005,408 during fiscal year 2004. Henry County also issued \$25,000,000 in general obligation bonds to kick-start the construction of Capital Projects for the SPLOST program.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to Henry County's basic financial statements. The County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of Henry County's finances, in a manner similar to a private-sector business. There are two government-wide statements, the statement of net assets and the statement of activities, which are described below.

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. It is important to note that this statement consolidates the governmental fund's current financial resources (short-term) with capital assets and long-term liabilities.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The governmental activities of the County include general government, judicial, public safety, public works, health and welfare, culture and recreation, and housing and development.

The government-wide financial statements include not only Henry County itself (known as the primary government), but also the Henry County Department of Public Health, the Henry County Development Authority, the Henry County Library System and the Henry County Water and Sewerage Facilities Authority. These are legally separate entities that are component units of the County due to the significance of their operational or financial relationships with the County. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Henry County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Henry County maintains governmental funds to account for the following activities: General; Special Revenue (Court Fund, Emergency 911, Hotel/Motel Tax, Confiscated Assets, Law Library, Greenspace, Technology Fund, Juvenile Assistance and Stormwater Fund); Capital Projects (Capital Assets Fund, 1996 SPLOST Fund, 2002 SPLOST Fund, Lease Purchase Fund and Impact Fee Fund); and Debt Service. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Emergency 911 Fund, 1996 SPLOST Fund, 2002 SPLOST Fund, and Lease Purchase Fund, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated column. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report. Henry County adopts an annual appropriated budget for its general, special revenue, capital projects, and debt service funds. Budgetary comparison statements have been provided for the General Fund and Emergency 911 Fund.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support Henry County's own programs. The accounting used for fiduciary funds is much like that used in the government-wide financial statements.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the notes to the financial statements.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government’s financial position. In the case of Henry County, assets exceed liabilities by \$190,937,184 at the close of the most recent fiscal year.

By far the largest portion of the County’s net assets (59 percent) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, and roads); less any related debt used to acquire those assets that are still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County’s investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Henry County’s Net Assets

	Governmental Activities	
	2004	2003
Current and other assets	\$ 116,405,398	\$ 70,354,718

Restricted	2,349,393	1,746,053
Unrestricted	76,290,806	57,550,098
Total net assets	<u>\$ 190,937,184</u>	<u>\$ 142,122,623</u>

An additional portion of Henry County’s net assets (1.23 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets (\$76,290,806) may be used to meet the government’s ongoing obligations to citizens and creditors.

At the end of the current fiscal year, Henry County is able to report positive balances in all three categories of net assets.

Governmental Activities. Governmental activities increased the County's net assets by \$48,814,560. Key elements of this increase are as follows:

Financial Analysis of the Government's Funds

As noted earlier, Henry County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of Henry County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$107,045,508, an increase of \$43,576,498 in comparison with the prior year. Approximately 98 percent of this total amount (\$104,696,115) constitutes unreserved fund balance, which is available for spending at the government's discretion. The remainder of fund balance is reserved to indicate that is not available for new spending because it has already been committed for drug abuse treatment (740,215), for wireless communications (1,199,084), for jail construction (324,682), or for various other restricted purposes (\$85,412).

The general fund is the chief operating fund of Henry County. At the end of the current fiscal year, unreserved fund balance of the general fund was \$35,666,924, while total fund balance reached \$35,745,892. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 48.59 percent of total general fund expenditures, while total fund balance represents 48.70 percent of that same amount.

The fund balance of the County's general fund increased by \$601,682 during the current fiscal year. This was due mainly to tighter controls on spending.

The 1996 SPLOST Capital Projects fund accounts for the financial resources provided from the 1996 one percent Special Purpose Local Option Sales Tax. These resources must be used for various building projects and road improvements throughout the County. At the end of the 2004 fiscal year, the 1996 SPLOST Capital Projects fund had an undesignated fund balance of \$12,875,792, a decrease of \$2,881,993 from the prior year. This decrease in fund balance is expected as projects are completed.

The 2002 SPLOST Capital Projects fund accounts for the financial resources provided from the 2002 one percent Special Purpose Local Option Sales Tax. These resources must be used for various building projects and road improvements throughout the County. At the end of the 2004 fiscal year, the 2002 SPLOST Capital Projects fund had an undesignated fund balance of \$42,295,606, an increase of \$38,811,941 from the prior year. The increase in fund balance was mainly due to a \$25,000,000 General Obligation bond issuance and the completion of the first full year of sales tax collections. An increase in fund balance is expected during the first few years of a SPLOST collection.

In fiscal year 2004, Henry County created the Lease Purchase Fund to track lease purchases separately from any other capital projects fund. Henry County enters into lease purchase agreements for the purchase of land, equipment, vehicles, and buildings through an agreement between the Association of County Commissioners of Georgia and Wachovia Bank. During 2004, Henry County entered into 2 new lease purchases totaling \$5,180,000. One lease was for the upgrade of our E-911 system, while the other lease was for the purchase of land for the creation of a county park. The year-end fund balance for the Lease Purchase Fund is \$354,350.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were \$1,639,040 and can be summarized as follows:

- Decrease in general government activities – (\$12,378,575);
- Increase in public safety functions - \$5,577,589, due mainly to an increase in personnel;
- Increase in judicial functions - \$2,790,371, due mainly to the addition of a new courthouse annex;
- Increase in public works services and related capital assets - \$284,843;
- Increase in health and welfare – \$371,749;
- Increase in culture and recreation – \$1,535,100
- Increase in housing and development - \$179,883

The budget increase was to be funded by a combination of increased general fund revenues and use of fund balance. The reason for the decrease in the general government activities is funds were held in the unallocated line items until the end of the year and were then allocated among the different activities. This is also the reason for the increases in all the other activities.

Capital Asset and Debt Administration

Capital Assets. Henry County's investment in capital assets for its governmental activities as of June 30, 2004 amounts to \$133,586,927 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, park facilities, roads, highways, and bridges.

Henry County's Capital Assets (Net of Depreciation)

	Governmental Activities	
	2004	2003
Land	\$ 15,363,311	\$ 10,916,240
Construction in progress	13,229,278	11,235,782
Buildings and improvements	46,156,224	45,305,273
Machinery and equipment	16,029,458	17,639,478
Roads	42,808,656	16,007,315
Total	<u>\$ 133,586,927</u>	<u>\$ 101,104,088</u>

Governmental assets installed during the year totaled \$40,006,141. Major projects consisted of the following:

- Acquisition of Park land
- Acquisition of Land for Right of Ways
- Donation of infrastructure by developers

Additional information on the County’s capital assets can be found in Note 6 of this report.

Long-term Debt. At the end of the current fiscal year, Henry County had total bonded debt outstanding of \$25,000,000. Of this amount, \$25,000,000 comprises debt backed by the full faith and credit of the government.

**Henry County’s Outstanding Debt
General Obligation Bonds**

	Governmental Activities	
	2004	2003
General obligation bonds	\$ 25,000,000	\$ -
Total	\$ 25,000,000	\$ -

Henry County’s total debt increased by \$25,000,000 (100%) during the current fiscal year. The key factor in this increase was a \$25,000,000 general obligation bond issuance for Henry County’s Special Purpose Local Option Sales Tax (SPLOST) program. This bond issuance will allow the County to construct capital buildings and improvements. The bonds will be paid off with proceeds from the monthly collection of SPLOST revenue.

Henry County maintains an “Aa2” issuer rating from Moody’s for general obligation debt.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10 percent of its total assessed valuation. The current limitation for Henry County is \$464,840,185 which is significantly in excess of the Henry County’s outstanding general obligation debt.

Additional information regarding the County’s long-term debt can be found in Note 8 of this report.

Economic Factors and Next Year's Budgets

- The unemployment rate for Henry County is currently 3.9%, which is an increase from a rate of 3.8% one year ago. The unemployment rate for the state of Georgia at November 1, 2004 is 4.1%.
- In Fiscal Year 2001 monthly LOST collections grew at a rate of 10.92% over 2000. In fiscal year 2002, LOST collections grew by 9.12% over 2001 collections. In Fiscal Year 2003 monthly collections increased by 7.47% over 2002. In Fiscal Year 2004 monthly collections increased by 11.42% over 2003.
- In Fiscal Year 2005, Henry County expects to receive \$23,015,653 in revenues from the Special Purpose Local Option Sales Tax (SPLOST.) This money will continue to help build a new courthouse annex, an animal shelter, two new fire stations, and two new libraries, and continue to help fund the construction of new roads, paving of dirt roads, and creation of new bridges.

All of these factors were considered in preparing Henry County's budgets for the 2005 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of Henry County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, Henry County, 140 Henry Parkway, McDonough, Georgia 30253.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2003

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 43,576,498
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	8,427,522
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net assets.	24,055,317
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(90,659)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(27,755,443)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	<u>601,325</u>
	<u>\$ 48,814,560</u>

HENRY COUNTY, GEORGIA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2004

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Henry County, Georgia (the "County") was created by legislative act in 1821 and operates under a Board of Commissioners/County Manager form of government, providing the following services as authorized by its charter: public safety (police and fire), highways and streets, health and social services, culture-recreation, public improvements, planning and zoning, and general administrative services.

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting policies are described below:

A. Reporting Entity

As required by accounting principles generally accepted in the United States of America, these financial statements present Henry County, Georgia (the primary government) and its component units. The component units discussed below are included in the County's reporting entity because of the significance of their operational or financial relationship with the County.

Discretely Presented Component Units

Henry County Department of Public Health

The Henry County Department of Public Health is governed by a seven-member board, of which four members are appointed by the governing authority of the County. The County approves the required local match portion of the budget requested by the Health Department which is administered by the appointed Board of the Health Department. The Henry County Department of Public Health is presented as a governmental fund type component unit.

The Henry County Department of Public Health's financial statements have been presented separately and can be obtained by writing to the Henry County Department of Public Health, 135 Henry Parkway, McDonough, Georgia 30253.

A. Reporting Entity (Continued)

Discretely Presented Component Units (Continued)

Henry County Development Authority

The Henry County Development Authority is governed by a five-member board, of which four members are appointed by the governing authority of the County. The County approves the annual operating budget for the Henry County Development Authority. The Henry County Development Authority is presented as a governmental fund type component unit.

Separate financial statements are not prepared for the Henry County Development Authority.

Henry County Library System

The Henry County Library System is governed by a nine-member board, of which six members are appointed by the governing authority of the County. The County approves the annual funding portion of the budget requested by the Library System which is administered by the appointed Library Board. In addition, the County provides a substantial majority of funding for the operations of the Library System, therefore, the Library is considered to be fiscally dependent on the County. The Henry County Library System is presented as a governmental fund type component unit.

The Henry County Library System's financial statements have been presented separately and can be obtained by writing to the Henry County Library System, 1001 Florence McGarity Parkway, McDonough, Georgia 30252.

A. Reporting Entity (Continued)

Discretely Presented Component Units (Continued)

Henry County Water and Sewerage Authority

The Henry County Water and Sewerage Authority (the "Water and Sewerage Authority") was created under the Acts of the General Assembly of the State of Georgia on March 28, 1961, to provide water and related services throughout Henry County, Georgia. The Authority is governed by a Board of Commissioners which is appointed by Henry County. The Henry County Water and Sewerage Authority is presented as a proprietary fund type component unit.

Separate financial statements for the Henry County Water and Sewerage Authority may be obtained by writing to the Henry County Water and Sewerage Authority, 1695 Highway 20 West, McDonough, Georgia 30253.

Blended Component Unit

The **Henry County Governmental Finance Corporation** ("the Finance Corporation") is governed by the members of the County's Board of Commissioners. Although it is legally separate from the County, the Finance Corporation is reported as if it were part of the primary government because its sole purpose is to finance and construct the County's public buildings through capital lease arrangements. Because capital lease arrangements between a primary government and its blended component unit are not to be reported as capital leases in the financial reporting entity's financial statements, the debt and assets of the Finance Corporation are reported as a form of the County's debt and assets. All debt service activity of the Finance Corporation will be reported as debt service activity of the County.

Separate financial statements are not prepared for the Henry County Finance Corporation.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and Fund Financial Statements

The Government-wide Financial Statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The Government-wide Financial Statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental Fund Financial Statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, intergovernmental grants, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the County.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The County reports the following major governmental funds:

The **General Fund** is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **E-911 Fund** accounts for the County's emergency communications operations by providing an open channel between citizens and public safety providers.

The **Capital Projects 1996 SPLOST fund** accounts for the revenues and expenditures relating to the 1996 one percent Special Purpose Local Option Sales Tax.

The **Capital Projects 2002 SPLOST fund** is used to account for the revenue and expenditures relating to the 2002 one percent Special Purpose Local Option Sales Tax.

The **Capital Projects lease purchase fund** accounts for the revenues and expenditures relating to the proceeds from capital leases.

Additionally, the County reports the following fund types:

The **Pension Trust Fund** accounts for the activities of the County's retirement plan which accumulates resources for pension benefit payments to qualified County employees.

The **Agency Funds** are used to account for the collection and disbursement of monies by the County on behalf of other governments and individuals.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

Amounts reported as *program revenues* include 1) charges for services provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Cash and Investments

Cash includes amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the County.

Statutes authorize the County to invest in obligations of the United States and of its agencies and instrumentalities, bonds of the State of Georgia and its agencies, instrumentalities and political subdivisions, certificates of deposit of national or state banks that are fully insured or collateralized by United States obligations, and Georgia Fund 1, the Local Government Investment Pool. Georgia Fund 1, created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard and Poor's criteria for AAAM rated money market funds and is regulated by the Georgia Office of Treasury and Fiscal Services. However, Georgia Fund 1 operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1.00 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines a participant's shares sold and redeemed based on \$1.00 per share.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Cash and Investments (Continued)

The County's investments, and the investments of its component units are stated at fair value, which is determined using selected bases. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national exchange are valued at the last reported sales price at current exchange rates, and investments that do not have an established market are reported at estimated fair value. Cash deposits are reported at carrying amount, which is fair value.

E. Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds are reported as "due to/from other funds."

F. Inventories and Prepaid Items

Inventories are valued at cost, which approximates market, using the first-in, first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

G. Restricted Assets

Certain proceeds of the primary government's general obligation bonds and capital leases, as well as certain resources set aside for their repayment, and certain proceeds of the Water and Sewerage Authority (component unit) revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the statement of net assets because their use is restricted by applicable bond covenants.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of the Water and Sewerage Authority is included as part of the capitalized value of the assets constructed.

Capital assets of the primary government are depreciated using the straight line method over the following useful lives:

<u>Asset Category</u>	<u>Years</u>
Buildings and improvements	40
Machinery and equipment	3-10
Roads	40

I. Compensated Absences

It is the County's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the County does not have a policy to pay any amounts when the employees separate from service with the County. All vacation pay is accrued when incurred in the government-wide and fiduciary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

K. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

L. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Assets

The governmental fund balance sheet includes reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$52,052,617 difference are as follows:

Capital leases payable	\$ (19,836,060)
General obligation bonds payable	(25,000,000)
Less: Deferred charge for issuance costs (to be amortized over life of debt)	346,315
Plus: Issuance premium (to be amortized against interest expense)	(1,729,762)
Compensated absences	(2,596,440)
Claims and judgments payable	(1,255,000)
Landfill postclosure costs	(1,573,127)
Accrued interest	<u>(408,543)</u>
 Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net assets - governmental activities</i>	 <u><u>\$ (52,052,617)</u></u>

NOTES TO FINANCIAL STATEMENTS

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (Continued)

B. Explanation of Certain Differences Between the Governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net change in fund balances – total governmental funds* and *change in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$8,427,522 difference are as follows:

Capital outlay	\$ 14,375,720
Depreciation expense	<u>(5,948,198)</u>
Net adjustment to increase <i>net change in fund balances - total governmental funds</i> to arrive at <i>change in net assets - governmental activities</i>	<u><u>\$ 8,427,522</u></u>

NOTES TO FINANCIAL STATEMENTS

**NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS
(Continued)**

**B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities
(Continued)**

Another element of the reconciliation states that “the net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net assets.” The details of this \$24,055,317 difference are as follows:

Donations of capital assets increase net assets in the statement of activities, but do not appear in the governmental funds because they are not financial resources.	\$ 25,630,421
In the statement of activities, only the <i>gain</i> on the sale of capital assets is reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the net book value of the capital assets sold.	<u>(1,575,104)</u>
Net adjustment to increase <i>net change in fund balances - total governmental funds</i> to arrive at <i>change in net assets of governmental activities</i>	<u>\$ 24,055,317</u>

NOTES TO FINANCIAL STATEMENTS

**NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS
(Continued)**

**B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities
(Continued)**

Another element of the reconciliation states that “The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.” The details of this \$27,755,443 difference are as follows:

Debt incurred:	
Capital lease financing	\$ (5,180,000)
General obligation bonds payable	(25,000,000)
Plus: premium	(1,825,860)
Less: issuance costs	365,555
Claims and judgments payable	152,500
Principal repayments:	
Capital leases	3,621,556
Landfill postclosure costs	110,806
	110,806
Net adjustment to decrease net change in <i>fund balances - total governmental funds</i> to arrive at change in <i>net assets - governmental activities</i>	\$ (27,755,443)

**B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities
(Continued)**

Another element of that reconciliation states that “some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.” The details of this \$601,325 difference are as follows:

Compensated absences	\$ (162,434)
Amortization of issuance costs	(19,240)
Amortization of premium on general obligation bonds	96,098
Accrued interest	(231,764)
Net pension obligation	<u>918,665</u>
Net adjustment to increase <i>net change in fund balances - total governmental funds</i> to arrive at <i>change in net assets - governmental activities</i>	<u><u>\$ 601,325</u></u>

NOTES TO FINANCIAL STATEMENTS

NOTE 3. LEGAL COMPLIANCE - BUDGETS

A. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to May 1, the County Manager submits to the Board of Commissioners a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted at the County Administration Building to obtain taxpayer comments.
3. Prior to July 1, the budget is legally enacted through passage of an ordinance.
4. Any transfers of budgeted amounts and any revisions that alter the total expenditures of any department or fund must be approved by the Commissioners. The legal level of budgetary control is the department level.
5. Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets were legally adopted for the General Fund, E911 Fund, Confiscated Assets Fund, Hotel/Motel Tax Fund, Law Library, Greenspace Fund, Court Fund, Technology Fund, Juvenile Assistance Fund, Stormwater Fund, Debt Service Fund, and Capital Assets Fund. The supplementary budgetary appropriations made were not material.
6. All annual appropriations lapse at the end of each year.

B. Deficit Fund Equity

The Stormwater Fund had a deficit fund balance of \$139,721 as of June 30, 2004. This deficit will be eliminated through future transfers from other funds.

NOTE 4. CASH AND INVESTMENTS

A. Cash on Deposit

At June 30, 2004, the County's deposits were \$65,670,355 and the bank balance was \$66,692,134. The Water and Sewerage Authority's (component unit) deposits were \$65,979,835 and the bank balance was \$67,167,490. The Department of Public Health's (component unit) deposits were \$1,477,095 and the bank balance was \$1,500,760. The Henry County Development Authority's (component unit) deposits were \$313,741 and the bank balance was \$315,170. The Henry County Library System's (component unit) deposits were \$853,731 and the bank balance was \$873,855. The amount of cash held in bank is classified into three categories of custodial credit risk: 1) cash that is insured or collateralized with securities held by the County or by its agent in the County's name, 2) cash collateralized with securities held by the pledging financial institution's trust department or agent in the County's name, and 3) uncollateralized bank accounts.

The bank balance is classified as follows at June 30, 2004:

	Category			Total

NOTE 4. CASH AND INVESTMENTS (Continued)

B. Investments

Statutes authorize the County and the Water and Sewerage Authority (component unit) to invest in obligations of the United States and of its agencies and instrumentalities, bonds of the State of Georgia and its agencies, instrumentalities and political subdivisions, certificates of deposit of national or state banks that are fully insured or collateralized by United States obligations, and Georgia Fund 1, the Local Government Investment Pool.

Investments are categorized below to give an indication of the level of risk assumed by the entity at year end. Category 1 is for investments that are insured or registered or for which the securities are held by the government or its agent in the government's name. Category 2 is for uninsured and unregistered investments for which the securities are held by the financial institution's trust department or agent in the government's name. Category 3 is for uninsured and unregistered investments for which the securities are held by the broker or dealer, or by financial institution trust departments or agents but not in the government's name.

NOTE 10. DEFINED BENEFIT PENSION PLANS

Primary Government

Plan Description

On July 1, 2003, the County began sponsoring the Association County Commissioners of Georgia Henry County Defined Benefit Plan (The Plan), which is a defined benefit pension plan.

The Plan provides retirement, disability, and death benefits to plan participants and beneficiaries. The Plan is affiliated with the Association County Commissioners of Georgia Third Restated Defined Benefit Plan (The ACCG Plan), an agent multiple-employer pension plan administered by GEBCorp. The ACCG, in its role as the Plan Sponsor, has the sole authority to amend the provisions of The ACCG Plan, as provided in Section 19.03 of The ACCG Plan document. The County has the authority to amend the adoption agreement, which defines the specific benefit provisions of The Plan, as provided in Section 19.02 of The ACCG Plan document. Complete financial statements for the Association County Commissioners of Georgia (ACCG) Defined Benefit Pension Plan can be obtained from Pension Service Company, 1100 Circle 75 Parkway, Suite 300, Atlanta, Georgia 30339.

Funding Policy

The County is required to contribute an actuarially determined amount annually to The Plan's trust. The contribution amount is determined using actuarial methods and assumptions approved by The ACCG Plan trustees and intended to satisfy the minimum contribution requirements as set forth in the State of Georgia statutes. Plan participants are required to contribute 6% of their compensation to the plan.

Library System – Component Unit

The Henry County Library System participates in the Teachers Retirement System of Georgia (TRS) retirement plan. Substantially all librarians and clerical personnel employed by regional and county libraries are covered by TRS, which is a cost-sharing multiple employer defined benefit pension plan. TRS provides service retirement, disability retirement and survivors' benefits for its members in accordance with state statute. The Teachers Retirement System of Georgia issues a separate stand alone financial audit report and a copy can be obtained from the Georgia Department of Audits and Accounts. Employees of the Library who are covered by TRS are required by state statute to contribute 5% of their gross earnings to TRS. The Library makes monthly employer contributions to TRS at rates adopted by the TRS Board of Trustees in accordance with state statute and as advised by their independent actuary.

Water and Sewerage Authority – Component Unit

Plan Description

On January 1, 2004, the Authority began sponsoring the Association County Commissioners of Georgia Restated Pension Plan for Henry County Water and Sewerage Authority (The Plan), which is a defined benefit pension plan.

The Plan provides retirement, disability, and death benefits to plan participants and beneficiaries. NOTES TO FINANCIAL STATEMENTS

NOTE 11. DEFINED CONTRIBUTION PENSION PLANS

Primary Government

The Henry County Matching Dollar Pension Plan (the Plan) is a single employer defined contribution plan established by Henry County. It was previously administered by The Variable Annuity Life Insurance Company for substantially all of its full-time employees. As of July 1, 2003, the Plan was transferred to GEBCorp. The Plan provides retirement, disability, and death benefits to plan participants and beneficiaries. Plan provisions and contribution requirements are established and may be amended by the Henry County Board of Commissioners. At June 30, 2004, there were 1,233 plan members.

Previously, employees were required to contribute 6% of their compensation to the Plan, except for employees hired before July 1994 who are not bound by this percentage. The County contributed an amount equal to 6% of each participant's compensation. The County began sponsoring a defined benefit plan during the year ended June 30, 2004. Each employee is required to contribute 6% of their compensation to the new defined benefit plan. The employee may contribute any additional amount to the defined contribution plan. Employees are not required to contribute to the defined contribution plan. The County no longer contributes to this plan.

The County's previous contribution for each employee is 100% vested after five years continuous service. For the fiscal year ended June 30, 2004, the amount contributed by employees was \$529,009. The County made no contributions.

Health Department – Component Unit

The employees of the Health Department participate in the Georgia State Employees Retirement System, a multi-employer, defined contribution plan. The Plan is administered by the State of Georgia, and accumulated benefits and Plan assets are not determined or allocated to the individual participating governmental entities. The Georgia State Employees' Retirement System of Georgia requires 10 years of continuous service to become fully vested. The total retirement contributions to the Georgia State Employees Retirement System for the year ended June 30, 2004, were \$117,944 based on qualifying salaries of \$1,136,473. Ten-year historical trend information and relevant actuarial information may be obtained from the Employee's Retirement System, Two Northside 75, Suite 300, Atlanta, Georgia 30318-7778 or calling 1-404-352-6400.

NOTES TO FINANCIAL STATEMENTS

NOTE 11. DEFINED CONTRIBUTION PENSION PLANS (Continued)

Water and Sewerage Authority – Component Unit

The Henry County Water and Sewerage Authority IRC 401(a) Plan is a single employer defined contribution plan established by the Board of Directors of the Water and Sewerage Authority and administered by ICMA Retirement Corporation for substantially all of its full-time employees. The Water and Sewerage Authority contributes between 8% and 10% of its employees' annual base salaries. The Water and Sewerage Authority's contribution for each employee is 100% vested after five years continuous service. Employees are not required to contribute to the plan. The Water and Sewerage Authority's total payroll during the year ended June 30, 2004, was \$7,257,487 and covered payroll was \$3,259,933. The Water and Sewerage Authority made its required contribution of \$329,473 for the year ended June 30, 2004.

NOTE 12. OTHER POSTEMPLOYMENT BENEFITS

The County provides postretirement health care benefits, as per the requirements of a local ordinance, for certain retirees and their dependents. Employees must complete 10 consecutive years of service, and the sum of the total years of service plus retiree's age must equal 75 or more. The County pays 80% of the premium and the employee must pay the remaining 20%. The County finances the plan on a pay-as-you-go basis. As of June 30, 2004, there were 12 retired employees receiving health care benefits. For the year ended June 30, 2004, the County paid \$51,244 for these benefits, which was net of \$13,596 of retiree contributions.

NOTE 13. HOTEL/MOTEL TAX

The County has levied a 5% hotel/motel tax. Of this percentage, 2% plus 15.71% of the remaining 3% is given to the Henry County Chamber of Commerce to be used for the promotion of tourism. For the fiscal year ended June 30, 2004, the County collected \$280,891 of hotel/motel taxes. Of this amount, \$141,271 was given to the Chamber. The remaining funds are kept by the County and used for other activities promoting tourism.

NOTES TO FINANCIAL STATEMENTS

NOTE 14. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County has joined together with other municipalities in the state as part of the Georgia Interlocal Risk Management Agency (GIRMA) Property and Liability Insurance Fund, and is a member of the Group Self Insurance Workers Compensation Fund (GSIWCF) for its workers compensation risks. Both IRMA and GSIWCF exist by authority of the Official Code of Georgia (OCGA), and both participate in risk sharing arrangements among Georgia county governments. The memberships allow the County to share liability, crime, workers' compensation, motor vehicle and property damage risks.

As part of these risk pools, the County is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The County is also to allow the pool's agents and attorneys to represent the County in investigation, settlement discussions and all levels of litigation arising out of any claim made against the County within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the workers' compensation law of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

Chapter 85 of Title 36 and Chapter 9 of Title 34 of the OCGA authorize Georgia counties to form interlocal management agencies. GIRMA and GSIWCF act as risk management agencies to function as unincorporated nonprofit instrumentalities of its member counties. GIRMA and GSIWCF establish and administer one or more group self insurance funds and a risk management service to prevent or lessen the incidence and severity of casualty and property and workers' compensation losses occurring in the operation of member governments.

NOTES TO FINANCIAL STATEMENTS

NOTE 14. RISK MANAGEMENT (Continued)

The County retains no amount of loss (no deductible) on its workers' compensation claims, and retains the first \$25,000 (in the form of a deductible) of each risk of loss in the form of a deductible for all other property and liability losses. The County files all claims with GIRMA and GSIWCF, respectively, and these instrumentalities bill the County for any risk of loss up to the deductible amounts.

The basis for estimating the liabilities for unpaid claims is an incurred but not reported calculation as established by an actuary. The County is not aware of any claims for which the County is liable for the deductible amount which were outstanding and unpaid as of June 30, 2004. No provisions have been made in the financial statements for the year ended June 30, 2004, for any estimate of potential unpaid claims.

The County pays an annual premium to IRMA and GSIWCF for the above referenced coverages, and IRMA and GSIWCF are self-sustaining through member premiums. There have been no significant reductions of insurance coverages, and settlement amounts have not exceeded coverages for the current year or the three prior years.

NOTE 15. LANDFILL POSTCLOSURE CARE

Effective June 30, 1993, the Henry County Landfill was closed and no additional waste has been accepted. According to state and federal laws and regulations, the County must perform certain maintenance and monitoring functions at the site for a minimum of 30 years. As of June 30, 2004, the County has a remaining 20 years of monitoring. Engineering studies estimate postclosure costs of approximately \$1,573,127 over the 20 year period. These costs are based on what it would cost to perform all postclosure care in 2004, adjusted annually for inflation. Actual costs may be higher due to changes in inflation, changes in technology, or changes in regulations. Should any problems occur during this postclosure period, the costs and time period required for the maintenance and monitoring functions may substantially increase.

NOTES TO FINANCIAL STATEMENTS

NOTE 16. COMMITMENTS AND CONTINGENCIES

Contractual Commitments:

In addition to the liabilities enumerated in the balance sheet, at June 30, 2004, the County has contractual commitments on uncompleted contracts of approximately \$4,863,479.

The Water and Sewerage Authority (component unit) has outstanding contractual commitments for construction of \$36,544,937.

Litigation:

The County is involved in several pending lawsuits. The nature of the lawsuits varies considerably. Management and the County's legal counsel have determined an aggregate liability, which is reasonably possible to arise from the proceedings to range in amounts from \$1,983,314 to \$11,983,314. A total of \$1,797,314 of this amount is believed by management and legal counsel to be probable. Of the \$1,797,314, \$542,314 relates to retainage on construction contracts and is recorded as retainage payable in the 1996 SPLOST fund. The remaining \$1,255,000 is recorded as claims and judgments payable on the government-wide statement of net assets, of which \$955,000 has been settled, but not yet paid by the County as of June 30, 2004. The County will continue to assert its position in a defense against these claims.

Grant Contingencies:

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, County management believes such disallowances, if any, will not be significant.

NOTES TO FINANCIAL STATEMENTS

NOTE 16. COMMITMENTS AND CONTINGENCIES (Continued)

Contract with the Hospital Authority of Henry County:

The County has entered into a contract with the Hospital Authority of Henry County (the "Hospital Authority") which obligates the County to make certain payments to the Hospital Authority in consideration of the Hospital Authority's agreement to provide hospital care to the County's indigent sick. Pursuant to an executed contract between the County and the Hospital Authority, the County is obligated to make payments, if necessary, in amounts sufficient to enable the Hospital Authority to provide for payment of the principal and interest on the Series 1992B Revenue Certificates and the Series 1997 Revenue Certificates as the same become due and payable at maturity or by proceedings for mandatory redemption, but within the current seven (7) millage limitation specified in the Georgia Hospital Authorities Law. Such payments, if deemed necessary, are to be paid to the Hospital Authority at least ten (10) days prior to each January 1 and July 1 of each year. At June 30, 2004, the total amount outstanding under these revenue certificates amounted to \$59,529,740.

NOTE 17. JOINT VENTURE

Under Georgia law, the County, in conjunction with other cities and counties in the ten county Atlanta region, is a member of the Atlanta Regional Commission (ARC) and is required to pay annual dues thereto. During its year ended June 30, 2004, the County paid \$144,550 in such dues. Membership in the ARC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of regional development commissions in Georgia.

The ARC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a regional development commission. Separate financial statements may be obtained from:

Atlanta Regional Commission

NOTES TO FINANCIAL STATEMENTS

NOTE 18. CHANGE IN REPORTING ENTITY

For the fiscal year ended June 30, 2004, the County's financial statements include the following new funds: Lease Purchase Fund, Impact Fees Fund, and Stormwater Fund. The Pension Trust Fund has been closed to reflect the Plan's move to a defined benefit pension plan administered by GEBCorp.

NOTE 19. PRIOR PERIOD ADJUSTMENTS

Water and Sewerage Authority – Component Unit

During the year ended June 30, 2004, the Authority performed a review of its capital assets and discovered that the Authority had inadvertently excluded assets that had been donated to the Authority in prior periods. Additionally, the Authority noted certain capital assets that had been disposed of in prior periods but had not been removed from the Authority's financial statements. The effect of this is to recognize a prior period adjustment to the net assets of the Authority as of June 30, 2003. A summary of the effects of this prior period adjustment is as follows:

	Capital Assets	Accumulated Depreciation	Net Assets
As previously reported at June 30, 2003	\$ 329,448,070	\$ 72,930,448	\$ 149,904,213
As adjusted at June 30, 2003	343,460,535	75,161,468	161,685,658
Prior period adjustment	\$ 14,012,465	\$ 2,231,020	\$ 11,781,445

Library System – Component Unit

GASBS No. 34 requires the Library to report and depreciate library books and library reference materials. Historically, the Library has reported these items as expenses in the financial statements. During the fiscal year, the State Library System required the Library to report books and materials as assets per GASBS No. 34. The Library calculated the beginning balance of books and materials based on a formula provided them by the State Library System. Using this formula, it was determined that the beginning balance of books and materials was \$2,267,479 with accumulated depreciation on these assets of \$1,446,777. The net effect of this change is an increase in net assets of \$820,702 at July 1, 2003.

COMPLIANCE SECTION

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

**To the Board of Commissioners
of Henry County, Georgia
McDonough, Georgia**

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Henry County, Georgia as of and for the year ended June 30, 2004, which collectively comprise Henry County, Georgia's basic financial statements and have issued our report thereon dated October 29, 2004. We did not audit the financial statements of the Henry County Department of Public Health or the Henry County Library System. Those financial statements were audited by other auditors whose reports have been furnished to us. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Henry County, Georgia's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect Henry County, Georgia's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items 04-1 and 04-2.

conditions, and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe none of the reportable conditions described above is a material weakness. We also noted other matters involving the internal control over financial reporting that we have reported to the management of Henry County, Georgia in a separate letter dated October 29, 2004.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Henry County, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain matters that we reported to the management of Henry County, Georgia in a separate letter dated October 29, 2004.

This report is intended solely for the information and use of the management and Board of Commissioners of Henry County, Georgia and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

**To the Board of Commissioners
of Henry County, Georgia
McDonough, Georgia**

Compliance

We have audited the compliance of Henry County, Georgia with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2004. Henry County, Georgia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Henry County, Georgia's management. Our responsibility is to express an opinion on Henry County, Georgia's compliance based on our audit.

Henry County, Georgia's basic financial statements include the operations of the Henry County Library System, which received \$2,200 in federal awards, which is not included in the schedule during the year ended June 30, 2004. Our audit, described below, did not include the operations of the Henry County Library System because the component unit engaged other auditors to perform an audit in accordance with OMB Circular A-133. In addition, Henry County, Georgia's basic financial statements include the operations of the Henry County Water and Sewerage Authority, which received \$4,351,048 in federal awards which is not included in the schedule during the year ended June 30, 2004. This schedule has been included in the separately issued statements of the Henry County Water and Sewerage Authority.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain

reasonable assurance about whether noncompliance with the types of compliance requirements referred to above could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Henry County, Georgia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Henry County, Georgia's compliance with those requirements.

In our opinion, Henry County, Georgia complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2004. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements that is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item 04-3.

Internal Control Over Compliance

The management of Henry County, Georgia is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Henry County, Georgia's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the management and Board of Commissioners of Henry County, Georgia and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

HENRY COUNTY, GEORGIA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2004

B. FINDINGS - FINANCIAL STATEMENTS AUDIT

04-1 Maintenance of Records for Agency Fund Accounts (Repeat Finding)

Condition: During our audit of the various elected officials as of June 30, 2004, we noted the detail listings of amounts payable to (or on behalf of) various parties were not being reconciled to the respective recorded cash balances. This situation was observed on certain accounts maintained at the following elected officials' offices: the Tax Commissioner, the Clerk of Superior Court, the Magistrate Court, the Probate Court, and the State Court.

Criteria: Agency funds are used to account for resources held by the County in a purely custodial capacity, which means that all funds held are owed to other governments, organizations, or individuals. Due to the nature of these funds, it is important that adequate records be maintained to account for receipts, disbursements, and any residual funds that are held to be paid at a later date. Such listings should be reconciled to the respective cash balances maintained.

Effect: By not reconciling the cash balances on hand to the supporting detail listings, differences could occur and go undetected by the elected officials.

Recommendation: The County should maintain adequate records including detailed listings to support the balances held in the agency funds.

Response: We concur. Subsequent to year-end, we have developed detail listings for the Clerk of Superior Court, the Magistrate Court, and the State Court. We will work to determine to whom all cash balances are owed, maintain these listings, and reconcile them to the cash balances on hand on a monthly basis.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2004

B. FINDINGS - FINANCIAL STATEMENTS AUDIT (Continued)

04-2 Segregation of Duties

Condition: There is not appropriate segregation of duties between recording, distribution, and reconciliation of cash accounts and other operational functions in the various funds possessed by the County. This is especially prominent in the offices of the Probate Court, Magistrate Court, Law Library, Juvenile Court, Clerk of Court, Tax Commissioner, and Sheriff.

Criteria: Internal controls should be in place which provide reasonable assurance that an individual cannot misappropriate funds without such actions being detected during the normal course of business.

Effect: Failure to properly segregate duties between recording, distribution, and reconciliation of accounts can lead to misappropriation of funds that is not detected during the normal course of business.

Recommendation: The duties of recording, distribution, and reconciliation of accounts should be segregated between employees.

Response: We concur. The offices listed above are in the process of reviewing their respective systems to evaluate and determine the most efficient and effective solution to properly segregate duties between recording, distribution, and reconciliation of accounts to provide reasonable assurance that an individual cannot misappropriate funds without being detected during the normal course of business.

C. FINDINGS AND QUESTIONED COSTS - MAJOR FEDERAL AWARD PROGRAMS AUDIT

04-3 Cost Sharing for Services (U.S. Department of Health and Human Services, Community Care Services Program – Title III, Part C, CFDA# 93.045)

Condition: For the fiscal year ending June 30, 2004, the County charged a cost share to individuals who were provided services by Senior Services of Henry County.

Criteria: According to the compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement*, cost-sharing is not allowed for Title III, Part C services.

Effect: The County has not been in compliance with the grant agreement and the compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement*.

Recommendation: The County should cease charging a cost share for services provided under Title III, Part C.

Response: We concur. Subsequent to year-end, we have ceased charging a cost share for services provided under Title III, Part C and have begun requesting donations, which is allowable under the grant agreement and the compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement*.

D. STATUS OF PRIOR YEAR AUDIT FINDINGS

03-1 Adoption of Budgets

Finding: For the fiscal year ending June 30, 2003, no budget was adopted for the following funds in accordance with the Official Code of Georgia (OCGA) Section 36-81-2 through 36-81-6: Technology Fund, Juvenile Assistance Fund, Debt Service Fund, and the 2002 SPLOST Fund.

HENRY COUNTY, GEORGIA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2004

D. STATUS OF PRIOR YEAR AUDIT FINDINGS (Continued)

03-1 Adoption of Budgets (Continued)

Status: For the fiscal year ending June 30, 2004, the County has adopted budgets for the general fund, special revenue funds, debt service fund, and capital projects funds.

03-2 Emergency 911 Telephone System

Finding: For the fiscal year ending June 30, 2003, the County had not set up a separate restricted reserve account for thirty cents of the monthly wireless-enhanced emergency 911 charges in accordance with the Official Code of Georgia (OCGA) Section 46-5-134.

Status: For the fiscal year ending June 30, 2004, the County has set up a separate restricted reserve cash account and revenue account.

03-4 Draw Down of Funds Before Spending (U.S. Department of Justice, COPS More Grant, CFDA #16.710)

Finding: For the fiscal year ending June 30, 2003, the County drew down funds on this grant more than six (6) months prior to spending the funds.

Status: For the fiscal year ending June 30, 2004, the County properly expended funds prior to requesting reimbursement.

03-5 Failure to Request Extensions in a Timely Manner (U.S. Department of Justice, COPS More Grant, CFDA #16.710)

Finding: For the fiscal year ending June 30, 2003, the County did not file an extension request until five (5) months after the deadline for filing an extension and two (2) months after the end of the grant period.

Status: The grant ended shortly after the beginning of the fiscal year ended June 30, 2004, and no further extensions were needed.

INDEPENDENT ACCOUNTANT'S REPORT ON LOCAL ASSISTANCE GRANTS

**To the Board of Commissioners
of Henry County, Georgia
McDonough, Georgia**

We have examined management's assertion included in the accompanying State of Georgia Grant Certification Form about Henry County, Georgia's compliance during the fiscal year ended June 30, 2004, with the requirement to use grant proceeds solely for the purpose or purposes for which the grant was made for Local Assistance Grant #00-C-L-206. Management is responsible for Henry County, Georgia's compliance with this requirement. Our responsibility is to express an opinion on management's assertion about Henry County, Georgia's compliance based on our examination.

Our examination was made in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting Henry County, Georgia's compliance with the above mentioned requirement and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on Henry County, Georgia's compliance with the specified requirement.

In our opinion, management's assertion that Henry County, Georgia complied with the aforementioned requirement for the fiscal year ended June 30, 2004, is fairly stated, in all material respects.

This report is intended solely for the information and use of Henry County, Georgia Board of Commissioners and the Georgia Department of Audits and Accounts, and is not intended to be and should not be used by anyone other than these specified parties.
