ADDENDUM #1
Issued September 12, 2018

BID # 19-06
Grading, Widening, and Paving of South Cleveland Church Road
OPENING: 3:00 PM, September 19, 2018

The following items take precedence over referenced portions of the documents for the above-named project and in executing a contract, will become a part thereof.

Where any item in the documents is supplemented hereby, the original requirements will remain in effect. All supplemental conditions will be considered as added thereto.

Where any original item is amended, voided or superseded hereby, the provisions of such items not so specifically amended, voided or superseded will remain in effect.

This addendum must be signed and attached to bid proposal to acknowledge receipt of addendum.
Failure to acknowledge any addenda will result in a non-responsive bid.

Bid #19-06
Grading, Widening, and Paving of South Cleveland Church Road
Questions and Answers

1. **Question:** Would you be able to provide more clarification on the item numbers because not all of the item numbers match GDOT pay/ID item numbers? Majority of the roadway items are the ones that do not match.
Answer: **Please see revised bid price sheet.**
2. **Question:** Would you please provide more details for Line No. 0210-Construction Exit Tire Wash Assembly and 0270-Maintenance of Construction Exit Tire Wash Assembly?
Answer: **Please see GDOT Construction Exit Detail D-41.**
3. **Question:** I need clarification: There is no line item provided for Bituminous Prime Coat.
Answer: **There is no bituminous prime coat on this project.**
4. **Question:** I need clarification: There are no locations shown on the plans for Construction Exit Tire Wash Assembly.
Answer: **Please refer to question #2.**
5. **Question:** There is a Bid Item for construction exit tire wash assemblies. GDOT has yet to provide a Special Provision that details what the tire wash assembly is and has removed the item from every bid this year. Please consider removing the bid items for installation and the maintenance of the construction exit tire wash assembly.
Answer: **Please include on bid item sheet. It may directed by the engineer as needed.**
6. **Question:** General Note 7 on Dwg 04-0001 says that the cost for filling and plugging wells shall be included in Grading Complete. We do not see any wells called out in the plans. Please confirm if there are any wells to be filled and plugged.
Answer: **This project does not anticipate any filling and plugging the wells. If any wells are found, it shall be paid under Grading Complete.**
7. **Question:** It appears that access from the Property Owners on South Cleveland Church Road to New Morn Rd and Stone Rd will have to be provided during the entire roadway construction. Further, the new roadway is constructed directly on top of the old gravel roadway. Is the 'Aggregate Surface Course' quantity intended to cover all work necessary to keep access to New Morn and Stone Rd for the homeowners during the entire construction duration? If this quantity overruns significantly to keep access during the construction, will Henry County pay the additional Tons necessary?
Answer: **The Aggregate Surface Course shall be used during rain and inclement weather conditions. The County will pay any overrun on ASC for this project.**
8. **Question:** Will the County allow for a road closure along South Cleveland Church Road in order to construct the proposed full depth paving?
Answer: **No, South Cleveland Church Road shall have access during the construction.**
